

J&R Positive Impact Academy

You are invited to apply for Jones & Roth's summer leadership program, J&R Positive Impact Academy. Our goal is to have Positive Impact Academy Alumni leave the sessions with more confidence, a clear direction and an understanding of how to create the career that fits your personal and professional goals.

J&R Positive Impact Academy is a selective program for high performing students with an interest in public accounting. We'll start with dinner and a social activity to get to know each other, then jump into an experience driven day of activities.

J&R Positive Impact Academy educates students on public accounting in a local/regional firm and the importance of creating a career plan that works for you. Activities, panels and presentations will focus on the non-technical skills you'll need to be successful.

Objectives:

- Learn about public accounting from the unique perspective of a local/regional firm
- Understand your instinctive work and communication styles and how they can be leveraged in your career
- J&R Positive Impact Academy will teach you how to make an impact in the lives of our clients, the community and our team
- Become a highly functioning team member
- Have fun and meet some great people
