ABOUT GEFFEN MESHER

Geffen Mesher is a mid-size firm with a small-firm feel. We provide a unique blend of the quality and depth of experience larger, national firms are known for, with the responsiveness and concern for clients that local firms often possess. In fact, many of our people began their careers with national firms and joined Geffen Mesher for its client service approach and the way we treat our people.

We are one of Portland's largest locally owned, independent CPA firms that has been deeply involved in the Portland community and throughout Oregon for over 80 years. About 125 people, we provide outstanding professional tax and financial consulting and reporting services to closely held businesses, business owners and high net worth individuals across a wide range of industries, including Manufacturing, Dealer Services, Construction, Real Estate, Professional Services and others. We help our clients succeed through our commitment to integrity, long-term relationships, communication, and quality service. Our experienced, knowledgeable and dedicated people are our strength and we take great pride in their commitment to our clients and our firm.

We take community service seriously too. In addition to individual volunteering, each year we close the office for a day and volunteer in the community. We've been doing this for 7 years now – that's a lot of good!
